

## Sewing Pattern — Pants 7035

Recommendations on fabric: woolen or mixed suiting fabrics

You will also need: 10 cm fusible interfacing of 90 cm wide; 40 cm elastic of 3 cm wide; zipper (length depends on size of the garment); 3 buttons of 12 mm in diameter.

If the pattern has a double line around it, the seam allowances are included.

**Note:** By default, seam allowances are NOT included (single line) and will need to be added when laying out and cutting details.

Attention! First of all, please print all the paper patterns and lay them out at the width of fabric you plan to use (usually from 90 to 150 cm) to see how much fabric you will need. Don't forget to take into account pieces to be duplicated or cut on a fold.

When sewing the garment, pay attention to notches, they must match up with corresponding pieces.

### **CUTTING:**

The word, “beam” used on some patterns means “straight of grain”. Some pieces will be cut on the fold, this is noted on the pattern piece. Mark all notches and other design features such as darts, pleats etc. from the pattern onto your fabric.
