

Sewing Pattern — Teddy Bear 3050

Recommendations on fabric: fur, velour, brocade, velvet, terry, dotted or squared cotton

If the pattern has double contour the seam allowances are included.

Seam allowances are NOT included by default and need to be added when laying out and cutting details if your pattern has single contour.

Seam allowances: 1 cm on all edges

Attention! Before sewing, print paper patterns and lay them out according to the linen width (from 90 to 150 cm) to find out how much material you need (do not forget about double and symmetric details).

When sewing the garment, pay attention to notches, they must coincide.

INSTRUCTIONS:

(On the pattern pieces, “beam” means straight of grain. Lay out your pieces accordingly. Some pieces will be cut on the fold. This is noted on the pattern piece. Mark all notches and other design features such as darts, pleats etc. from the pattern onto your fabric.)

Fabric:

2. Sew together nape and right parts, joining center seam, and inserting turned out ears.
3. Sew nose to face, aligning notch to center seam.
4. Sew outer edge of nose part and lower section of snout with one seam, starting from nose tip.

5. Attach eyes according to directions.
6. Connect paw and leg parts to belly, aligning concave edges.
7. Connect belly, paws and legs to back with one seam, leveling center edges and notches. Make notches in corners on back part between paw and leg.
